CAREER OBJECTIVE

Motivated B.Tech Computer Science & Information Technology student with a strong interest in Web Development, Software Engineering, Cybersecurity, and Artificial Intelligence. Seeking internship and entry-level opportunities to apply technical skills, contribute to innovative projects, and gain practical industry experience while continuously learning and growing as a developer.

TECHNICAL SKILLS

Languages:	Python, C, Java (Basics), SQL
Frontend Development:	HTML5, CSS3, JavaScript, Bootstrap, Responsive Web Design
Backend & Cloud:	FastAPI, Streamlit, Firebase Firestore, Firebase Authentication, Vercel, Firebase Hosting, GitHub Pages
AI & Data Analysis:	Pandas, Plotly, Scikit-Learn, Prompt Engineering, Generative AI, Machine Learning Fundamentals
Web Tech & 3D:	Three.js, GSAP, REST APIs, OpenWeather API, NASA POWER API
Cybersecurity:	Network Security, Vulnerability Assessment, Ethical Hacking Fundamentals, Wireshark
Soft Skills:	Problem Solving, Leadership, Teamwork, Communication, Critical Thinking, Adaptability

EDUCATION

Dronacharya Group of Institutions, AKTU 2024 – 2028

B.Tech in Computer Science & Information Technology

Academic Performance: Sem 1: 6.7 SGPA | Sem 2: 5.5 SGPA | Sem 3: 6.8 SGPA | Sem 4: 5.8 SGPA

EXPERIENCE & INTERNSHIPS

Cybersecurity Intern — UptoSkills 3 Months

- Completed hands-on training in cybersecurity, networking, vulnerability assessment, and threat analysis.
- Worked on network security concepts, cyber threat analysis, and secure system fundamentals.
- Gained practical exposure to cybersecurity tools, ethical hacking, and risk mitigation techniques.

Web Development Intern — InAmigos Foundation 15 Days

- Developed responsive websites using HTML5, CSS3, JavaScript, and Bootstrap.
- Built and deployed the InAmigos Foundation NGO website with a modern, mobile-friendly UI.
- Performed website analysis, UI/UX improvements, and responsive design optimization with AI assistance.

LEADERSHIP & CAMPUS OUTREACH

GeeksforGeeks Campus Mantri Campus Ambassador

- Served as a campus representative to foster coding culture and guide students regarding tech learning resources.

Internshala Student Partner

Student Representative

- Promoted internship opportunities and career development programs across the student community.
- Helped students discover verified professional internships and technical skill development resources.

Cloud Junction Ambassador

Technical Representative

- Represented Cloud Junction in student outreach activities to bridge industry-academia knowledge gaps.
- Promoted cloud computing awareness, distributed infrastructure basics, and technical learning initiatives among peers.

PROJECTS

ClimateTwin AI — India's Climate Digital Twin (ISRO Hackathon)

Python, Streamlit, Pandas, Plotly, Scikit-Learn, NASA POWER API, ReportLab

- Developed an AI platform using NASA POWER API for the ISRO Bharatiya Antariksh Hackathon.
- Built interactive dashboards with climate analytics, risk prediction, and automated AI-driven insights.
- Implemented dynamic PDF/CSV report generation and deployed on Streamlit Community Cloud.

[Live Demo](#) | [GitHub](#)

AI App Compiler

Python, FastAPI, Streamlit, Pydantic, Git, GitHub

- Developed an AI blueprint generator converting natural language requirements into structured software plans.
- Implemented intent extraction, role detection, schema generation, and automated validation/repair workflows.

[Live Project](#) | [GitHub](#)

Techfest 3D Experience Website

HTML5, CSS3, JavaScript, Three.js, GSAP, GitHub Pages

- Developed a futuristic 3D interactive landing page using Three.js and GSAP fluid animations.
- Implemented fully responsive layout components, interactive elements, micro-interactions, and countdown timers.

[Live Demo](#) | [GitHub](#)

Temple Ledger AI — Smart Temple Donation System

HTML5, CSS3, JavaScript, Firebase Firestore & Auth, AI Concepts

- Developed a donation and ledger tracking dashboard using secure Firebase Authentication integration.
- Built an analytics layout for secure donor record maintenance, direct transactions, and modern reporting.

AI Water Analytics Dashboard

Python, Streamlit, Pandas, Plotly, Machine Learning Concepts

- Built a data analytics and predictive dashboard outlining localized volume consumption trends.
- Applied future consumption predictions based on historical distributions and interactive Plotly visualizations.

[Live Project](#) | [GitHub](#)

InAmigos Foundation — NGO Awareness Website

HTML5, CSS3, JavaScript, Vercel, GitHub

- Designed and deployed a responsive multi-page website with Mission, Projects, Gallery, and Donation frameworks.

[Live Demo](#) | [GitHub](#)

AI-Powered Weather Dashboard

HTML5, CSS3, JavaScript, OpenWeather API, Vercel

- Built a responsive real-time metrics tool incorporating current weather, AQI parameters, and a 5-day predictive forecast.

[Live Demo](#) | [GitHub](#)

Ayush Store Management Website (Freelance)

HTML5, CSS3, Bootstrap, JavaScript, Firebase Firestore & Auth, Firebase Hosting

- Built a full-stack responsive management application including an admin dashboard and dynamic product/review catalogs.

Ayush Service Centre Business Website

HTML, CSS, Git, GitHub, Vercel

- Designed a static multi-page commercial solution featuring dynamic WhatsApp contact tools and location map scripts.

[Live Project](#) | [GitHub](#)

RESEARCH & PUBLICATIONS

IoT in Airport Systems – Research Paper (Published)

- Conducted formal research on industrial IoT application protocols and architecture security in airport ecosystems.
- Analyzed edge vulnerability distributions across terminal structures and mapped technological risk mitigation solutions.

HACKATHONS & ACHIEVEMENTS

- **ISRO Bharatiya Antariksh Hackathon** – Built the ClimateTwin AI architecture mapping real-time datasets.
- **Hack A Geek Hackathon** – Runner-Up (2nd Position) | Team Leader
- **Dron Innovision Hackathon** – Top 20 Team Finalist | Team Leader
- **Innovision Ideathon (Trinity Institute)** – Selected for Round 1 | Team Leader
- **AMD AI Reinforcement Learning Hackathon (IIT Delhi)** – Active Participant

CERTIFICATIONS & EXTRA-CURRICULARS

- **Certifications:** Cybersecurity Job Simulation (Forage, 2026) | Software Engineering Job Simulation (Forage, 2026)
- **Activities & Languages:** National Service Scheme (NSS) Volunteer | Fluent in English and Hindi
