CAREER OBJECTIVE

Motivated B.Tech Computer Science & Information Technology student with a strong interest in Web Development, Software Engineering, Cybersecurity, and Artificial Intelligence. Seeking internship and entry-level opportunities to apply technical skills, contribute to innovative projects, and gain practical industry experience while continuously learning and growing as a developer.

TECHNICAL SKILLS

Languages:	Python, C Programming, JavaScript (Basic)
Web Technologies:	HTML, CSS, Streamlit, FastAPI, Bootstrap
Databases:	SQL (Basic), Firebase Firestore
Tools & Platforms:	Git, GitHub, Vercel, Firebase (Auth, Hosting)
Data Analytics:	Pandas, Plotly
Cybersecurity:	Cybersecurity Fundamentals, Network Security, Vulnerability Assessment
Soft Skills:	Problem Solving, Team Leadership, Communication Skills

EDUCATION

Dronacharya Group of Institutions, AKTU

2024 – 2028

B.Tech in Computer Science & Information Technology

Academic Performance: Semester 1: 6.7 SGPA | Semester 2: 5.5 SGPA | Semester 3: 6.8 SGPA

EXPERIENCE & INTERNSHIPS

Cybersecurity Intern

3 Months

- Gained hands-on exposure to cybersecurity fundamentals and vulnerability assessment methodologies.
- Analyzed core networking concepts and applied foundational security analysis techniques.

GeeksforGeeks Campus Mantri

- Served as a campus representative to foster a coding culture and guide students regarding tech resources.

PROJECTS

AI Water Analytics Dashboard

Python, Streamlit, Pandas, Plotly, Machine Learning Concepts

- Developed an AI-powered water consumption analysis and forecasting dashboard using Python and Streamlit.
- Implemented interactive visualizations and country-wise water usage analysis using Plotly and Pandas.
- Integrated future water consumption prediction models based on historical trends and analytical data.

Links: [Live Project](#) | [GitHub](#)

AI App Compiler

Python, FastAPI, Streamlit, Pydantic, Git, GitHub

- Developed an AI-powered application blueprint generator that converts natural language requirements into structured software plans.
- Implemented intent extraction, role detection, feature identification, schema generation, and validation workflows.
- Designed validation and automated repair mechanisms to improve system output consistency, reliability, and accuracy.

Ayush Store Management Website *(Freelance Project)*

HTML, CSS, Bootstrap, JavaScript, Firebase Firestore, Firebase Authentication, Firebase Hosting

- Developed and deployed a responsive store management e-commerce website for a local business.
- Built a secure Admin Dashboard using Firebase Authentication and integrated Firestore for dynamic, category-wise product and review management.

Ayush Service Centre Business Website

HTML, CSS, Git, GitHub, Vercel

- Designed, developed, and deployed a complete responsive multi-page business website featuring product showcases and service listings.
- Integrated smart communication features including WhatsApp contact functionality, direct calling, and Google Maps location support.

RESEARCH EXPERIENCE

IoT in Airport Systems – Research Paper (Published)

- Conducted comprehensive research on IoT applications, core architecture, and security aspects within airport systems.
- Explored underlying security challenges in smart airport infrastructure and proposed robust technological solutions.

HACKATHONS & ACHIEVEMENTS

- **Hack A Geek Hackathon** – Runner-Up (2nd Position) | Team Leader
- **Dron Innovision Hackathon** – Top 20 Team | Team Leader
- **Innovision Ideathon (Trinity Institute)** – Selected for Round 1 | Team Leader
- **AMD AI Reinforcement Learning Hackathon (IIT Delhi)** – Participant

CERTIFICATIONS

- **Cybersecurity Job Simulation** – Forage (2026)
- **Software Engineering Job Simulation** – Forage (2026)

EXTRA-CURRICULAR ACTIVITIES & LANGUAGES

- **Activities:** National Service Scheme (NSS) Volunteer | Team Leadership in Technical Events and Hackathons
- **Languages:** English, Hindi
